

One of the Top 10 Manufacturers of High Speed Take-Out Injection Molding Robots

Highest Performing
Most Precise
Take-Out Robots

0.94s

Take-Out Time

86

Employees

16

Patents

Specialties Include:

- Specialized Tasks
- Plastic Injection Molding Solutions
- Factory automation systems

5-Axis Articulated Robot

- Improved Precision
- 800, 1300, & 2300 tons Systems
- Easy Operation
- Less Maintenance
- High-Speed Take-Out

VIDEO: 5-Axis Demo:

Financials

	2015	2016	2017	2018	2019p	2020p	2021p
Revenue	\$15.7M	\$15.0M	\$16.4M	\$14.9M	\$18.2M	\$21.0M	\$24.0M
Adj. EBITDA	\$1.2M	\$1.2M	\$1.7M	\$1.6M	\$2.5M	\$3.2M	\$3.90M

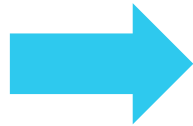

World-Class Controllers from KEBA:

- Company has developed an alliance with KEBA, a major Austrian robotics company
- As a result, Company's take-out robot controllers are supplied by KEBA

Pioneers Defining the Cutting Edge:

- First to Develop Weight Sensing Devices
- First to Develop Temperature Measuring Devices
- First to Develop Static Eliminators

Utilized on Husky Systems:

Full Line Providing Total Solution for Injection Molding

International Offices Worldwide in:

- U.S
- China
- Indonesia
- Viet Nam
- Mexico
- India
- Thailand
- Malaysia
