Great Business Potential

- The Company is seeking the opportunity to establish its presence in the whole ASEAN market, whose total population is about 700 million.
- The Company has partnerships with Central Banks in various countries to promote e-payment, presenting it as an important part of said nations' payment ecosystems.
- There is great business potential in Online to Offline (O2O) services and omnichannel payment systems, with the deployment of 5G telecommunication infrastructure and shifts in consumer behavior.
